

INSTITUTE OF NATIONAL AFFAIRS

SEMINAR

‘Status of the global coffee market; trends and opportunities for PNG’

**By Mick Wheeler,
Economist**

Mick Wheeler is based in UK and a recognised expert on the international coffee market, particularly the evolving specialty and certified markets. He has been associated with the PNG Coffee Industry for nearly the past 5 years, working in the late 1970’s and early 1980’s with the Department for Primary Industry (sometimes as Chief Economist) and since the mid 1980’s Mick has been the Coffee Board (now CIC’s) market adviser as well as playing a key role over the years with the International Coffee Organisation.

Mr Wheeler will be attending this year’s Coffee Symposium this week (at the International Convention Centre), and we’re fortunate to have him here to share his knowledge and experience of the global coffee market with us.

INA invites interested members of the public to attend, discuss topics and engage in problem solving in its seminars.

Friday 24th May 2019, @ 1.00pm – 2.30pm

INA Conference Room, 2nd Level, IPA Haus, Konedobu

Limited spaces available so interested organisations and individuals are requested to register your attendance by calling Moale Sabadi or Esther Wari on 321 1044/45; email: moale.sabadi@cimcpng.org/esther.wari@cimcpng.org or by clicking ‘attend’ on this event on the ‘INAPNG’ Facebook page
